

# Science and Engineering Collaboration Program (SECP) Nomination Form

In addition to the following information, please attach your current resume

Applicant's Name:		Applicant's Phone:	
Position/Title:		Major(s):	
Highest Degree Earned:	Grade:	E-mail:	
Mailing Address/Org Code:		Supervisor's Name:	
Supervisor's E-mail:		Supervisor's Phone:	

## RATING FACTORS

1. Describe your past experience and major accomplishments in your discipline work. Include any awards or special achievements. Explain why you feel you are ready for this developmental opportunity.

2. Describe how your participation in SECP will help support your long term goals and career objectives. What would be your wishes for a re-entry opportunity once you complete this rotation?

3. Describe your experience in hands-on work. For example, what projects or efforts have you participated in that gave you direct engineering experience from concept to design fabrication? Work from school or during CO-OP opportunities are acceptable.

4. Do you have any specific science laboratory interests? For example, are there any requests you have to work in a particular area of research within a Science Division at GSFC?
